Dear Fellow Equestrians,

2018 has been an exciting year for Amerigo, Equilibrium, EA Mattes, and Vespucci. Riders sporting these brands around the world have risen to top rankings in dressage, show jumping and eventing - many of them remaining competitive at the top levels for years. The take away is this, across disciplines, these brands help horses perform and win at the highest levels of sport, which translates into trusted products for riders of all levels. WEB is honored to offer equipment to riders at all levels who diligently seek out products they deem worthy of their horses. The well-being of the horse is always our first goal.

What’s new in these pages for 2019? Look for beautiful new strap and accessories from Amerigo and Vespucci. And we’re excited about Mattes gaining momentum in Western sports; you’ll find the top sellers in this catalog. Equilibrium has once again gone above and beyond with new Therapy products, as well as a total revamp of the Impact Sports boots - we think you will love them!

As always, we thank you for your trust in our products and service. In it together,

Robin
Owner & CEO

Proven performance worldwide, year after year, Amerigo Vega saddles are a favorite in the dressage arena, on cross country, and show jumping for one main reason: they work! Providing correct balance for the rider, and excellent fit for the horse that complements the natural dynamic of the horse in motion; Vega saddles are the saddle of choice for discerning riders. Designed with independent Swiss style wool flocked panels, beautiful Italian leather, precision craftsmanship, and an array of fitting options.

Narrow, Wide, and Extra Wide trees available by special order.

***Amerigo saddles and strap goods are vegetable tanned, NOT dyed. We recommend the use of Amerigo leather care products (Page 13) and avoiding products with alcohol.

Vega Dressage Deluxe Special

SRP $5,100.00 • Item #51831 • Q0134000019
Material: Calfskin • Color: BK
Tree: N, M, MW, W, XW • Seat: 16”, 17”, 18”
The Vega Dressage Deluxe is designed with a traditional covered block, rather than an exterior block on the outside of the flap. Beautiful Italian calfskin provides extra grip.
Great for professionals and amateurs alike

The Vega Dressage is an extremely comfortable and accommodating saddle. This saddle offers a well balanced and moderately deep seat that encourages proper positioning of the seat and leg. Anatomically shaped blocks follow the angle of the thigh. The unique V-Billet system is designed with a sliding attachment to allow proper position of the girth for the comfort of the horse.

Amerigo Vega
Monoflap Dressage

SRP $4,750.00 • Item #51871- A • Q0131500019
Material: Calfskin • Color: BK
Tree: N, M, MW, W, XW • Seat: 16", 17", 18"
Flap Length: Normal is stocked. Short, Long, Extra Long, and Forward available by special order.
Beautiful Italian Calfskin provides extra grip. Monoflap saddle.
All available by special order only.

The ‘Siena’ features a special ergonomic flap designed by Peter Menet, which provides a great option for riders. The integrated soft calf skin covered exterior kneeroll is designed to ensure support while also allowing for a relaxed, free and efficient leg position. The Siena flap offers flexibility for the rider’s leg length, and is also suitable for the longer legged riders, and riders that prefer to ride with more angle in their hip and knee.

Amerigo Vega
Siena Special Dressage

SRP $4,900.00 • Item #51891- A • Q0132500019

Tree: (Same tree as Vega Dressage) N, M, MW, W, XW • Seat: 16", 17", 18"
Flap Length: Normal is stocked. Short, Long, and Extra Long available by special order.
Beautiful Italian Calfskin provides extra grip. Available in a dual-flap or monoflap option.
All available by special order only.

The Vega Close Contact Siena Dressage is a fitting solution designed specifically for horses with short backs and normal withers. The straighter tree offers a secure, balanced ride on horses that need a close contact fit. Available in a dual-flap or monoflap option.
The Amerigo Vega Jump, a beautifully made and very versatile saddle is designed to put the rider in the correct balance and position on top of the movement, rather than behind it. Featuring anatomically designed knee and thigh blocks that are supportive, but do not hinder your movement in the saddle.

Narrow, Wide, and Extra Wide trees available by special order.

Protector Stud Girth with Vibram

SRP $600.00 • Item #813488 • Q014000019 • Size: 50”-56” • Color BK, BR, OB
A revolutionary protector stud girth. The pressure from the girth is directed on the horse’s sternum, which is less sensitive to pressure, and the special shape and innovative use of materials protects the delicate area around the elbow. This girth plays an important role in optimizing the equipment used for improved performance.

Vibram is a strong rubber that provides excellent protection while its flexibility and softness is also very comfortable for the horse.
Amerigo Boots

Designed in conjunction with Edwina Tops-Alexander for minimum bulk and maximum protection for even the finest legs. Lined with calfskin to reduce the risk of overheating during use. The elastic straps with stud fastenings or Velcro® are quick and easy to use.

**Amerigo Strap Goods and Leather Care**

**Stirrup Irons**
SRP $285.00 • Item #510522 • Q011680019 • Silver, Gold and Black

Amerigo Stirrup Irons are made from aluminium and the special design of the surface holes creates a self-cleaning tread, as well as excellent grip for all types of boots. Furthermore, the 30° inclination of the hole through which the stirrup leathers are threaded allows the stirrups themselves to be constantly in the correct position, therefore enhancing the grip further on the rider’s boot. Available in black, silver, or gold with black tread, the Amerigo stirrup iron combines hi-tech qualities and comfort, in keeping with Amerigo’s philosophy aimed at innovation and attention to detail for both horse and rider.

**Soft Balm**
SRP $39.00 • Item #510531 • 500ml
For regular maintenance. Helps to protect the leather from the elements, and provides a comfortable grip for the rider.

**Soft Oil**
SRP $38.00 • Item #510532 • 500ml
We recommend an application of oil before initial use. Regular application of the oil (every 8-12 weeks) will help to maintain the suppleness of the leather.

**Soft Clean**
SRP $27.00 • Item #510533 • 500ml
Non-soapy cleaner which removes dirt and sweat from the leather without drying it out.

**Soft Care**

If you are looking for a bridle with innovative design that puts the horse's comfort and performance first, look no further! Following an exhaustive study of equine anatomy more than two decades ago, Peter Menet learned where a horse is susceptible to facial pain and injury, inspiring him to literally reinvent the bridle. Vespucci's proven design incorporates the biomechanics of a horse in motion, pressure points on the horse's head, and the best way to communicate between rider and horse. All Vespucci Bridles offer a signature padded Single Crownpiece, padded nose and browband, and adjustable padded protection under the jaw. With Vespucci, your bridle is more than a tool. It is an Instrument of Performance.

Quality - E.A. Mattes Sheepskin Pads are made with only the finest quality sheepskin and a one-at-a-time mentality that ensures product quality. Pads are handmade from start to finish with attention to detail that is unparalleled. Each hide is thoroughly inspected, hand picked for quality, and made with full hides to ensure no seams contact the horse's back.

Design - The anatomically correct topline design of Mattes Sheepskin Pads follows the contours of the horse's back and allows for a perfect fit under the saddle. The patented SPINE FREE® Design ensures the spine is not in contact with any seams, fabric, or tension which eliminates the risk of rubs and pressure on the sensitive area of the back around the spine.

Function - Sheepskin has long been known for its amazing natural properties including heat dissemination, breathability, and the ability to eliminate friction and bounce. This cannot be imitated by wool pile, artificial fiber product, or foam.

Correction - The Mattes CORRECTION®-SYSTEM was recently rated the #1 therapeutic pad on the equine market by the Horse Journal. The Mattes CORRECTION®-SYSTEM helps maintain balance and straightness for horses that change form through a season or have asymmetries. POLY-FLEX® Shims are resilient, do not bottom out like foam or other materials, and allow incremental adjustments to be made easily. The shims are 5mm thick, designed to be layered, and are easily trimmed with scissors to taper the ends and create a pressure free fit if multiple shims are necessary.

Care Instructions - Wash with MELP, a detergent that includes regreasing properties to keep sheepskin in top condition. Regular detergents can dry the sheepskin and lessen the quality of the pad. Hand or machine wash in cold water on the gentle setting. Gently pull into shape. Lay flat to dry. Do not expose to sun or dry with heat. DO NOT USE CHLORINE BLEACH.

* In order to maintain your satisfaction guarantee warranty for Mattes products, MELP must be used when washing.

# E.A. Mattes Size Charts

## How to Select The Correct Size Pad:

1. Measure the length of top line along the curvature of the top line. (A to B)
2. Measure the Flap length from the lowest point of the top line to the lowest point vertical. (C to D)
3. Measure the Width of rear cushion from the lowest point of panel to the top line. (E to F)
4. Measure the Flap width (Contoured Pads only) horizontally across the widest part of the flap. (G to H)

E. A. Mattes GOLD pads are made from the same design and high quality materials as the sheepskin pads. Instead of full sheepskin panels, the GOLD pads are made with high loft, dense, 1\(\frac{1}{4}\)" long wool on a fabric backing. The front and rear trim are sheepskin which allows the GOLD collection to enjoy all the colors of the Couture Collection (see pages 23-24).

Should Couture Collection colors be desired, the sheepskin trim will be in the selected color while the panels (underside) will be a natural wool color. MELP is still recommended since the GOLD collection pads are still made partially with sheepskin.

E. A. Mattes Platinum Sheepskin Half Pads

E. A. Mattes Platinum Sheepskin is the leader in sheepskin pads for quality, density, resilience, and purpose. Designed with no seams on the highest grade sheepskin available; E. A. Mattes Sheepskin Pads, simply put, are beyond comparison. A long time favorite among riders of all disciplines, Mattes are the go to pads in stables all over the world.

Mattes Half Pads fit neatly under the saddle and can be used directly on the horse's back or on top of a quilted pad that has a similar shaped top line, such as the Mattes Quilt Only Pads.

* Small and Extra Large sizes are available by special order only.

E.A. Mattes Platinum Sheepskin Square Pads

Mattes Square Pads offer the same benefits of the half pad, but in a full-pad style. The sheepskin panels offer protection while the “bare,” or unlined flaps minimize bulk under the rider’s leg. The flaps are quilted with a layer of POLY-FLEX®, a material that absorbs energy and eliminates bounce.

* Small and Extra Large sizes are available by special order only.

E.A. Mattes PM Half Pads

The Mattes PM System was developed in conjunction with Peter Menet, designer of Amerigo and Vega saddles. The PM System Half Pads have all the same features and benefits of the original Mattes Half Pads, but the billet straps are replaced by a button hole on each side that goes completely through the pad. This allows the billet straps of a Mattes Quilt-Only or Light Flannel Pad to be fed through the button hole, making two pads into one unit.

*Small and Extra Large sizes are available by special order only.

Girth Fitting

Girth fit is frequently overlooked in assessing proper tack fit. When using a short girth, it should come to no more than four fingers below the flap. This provides stability, as well as removes buckles and forms away from the horses elbow. Girth shapes should also be considered. Please see the selection and uses of Mattes girths on pages 35 – 37.

*Cause*

*Possible Consequence*

*Solution*

---
**Why a variety of girths?**

There is more to saddle fitting than assessing the horse's topline. The saddle position in relation to the natural girth position, length of withers, and the alignment of withers, shoulders, and elbows all have an effect on the saddle. E. A. Mattes has revolutionary girth shapes that address and correct the various issues that arise from certain conformation types.

---

**Asymmetric Girth**

Designed for horses with conformation of shoulder, elbow, and girth position line up, causing no room for the girth which frequently results in rubs and galling with a normal shaped girth. Anatomically shaped extra deep at the elbow for relief from any pressure.

---

**Athletico Girth**

Created to accommodate a horse with a saddle position that is quite far back and a barrel that causes the girth to slide back. The design allows the girth to stay comfortably in the correct position, rather than sliding back causing the saddle to slide back with it.

---

**Contoured Girth**

Made for the horse with correct and uncomplicated conformation allowing for the girth to sit in the natural position without interfering with the elbow.

---

**Crescent Girth**

For horses with a combination of a short back and sprung rib cage causing girths to slide forward into the elbow. The crescent girth shape keeps the girth from being pushed forward and gives room for the elbows, and helps eliminate galling.
E.A. MATTES SHEEPSKIN GIRTHS

E.A. Mattes Sheepskin Girths provide superior protection against rubbing, galling, and overall discomfort. The natural properties of sheepskin, including heat dissemination, breathability and the ability to reduce friction, make sheepskin the ideal girth material. Great for active riders, the Mattes Detachable Girth makes caring for your girth easier than ever before. Simply detach the sheepskin cover from the base girth for quick wash. Option to purchase base girths and sheepskin covers separately allow even greater flexibility for using one girth on multiple horses. (Couture colors are special order, see page 23 for quilt and sheepskin options.) Wash with MELP, see page 39.

* Girth covers should be frequently washed with MELP to maintain the quality of the sheepskin.
* Base girths are not to be used without the cover.

E.A. Mattes MELP

Why MELP? MELP is formulated to protect your Mattes product by not only cleaning the wool, but by actually regreasing the hide which restores the elasticity and other properties of the wool and hide. While there are other gentle wool cleaners on the market, MELP is the only one specifically designed with the hide in mind. In order to maintain your satisfaction guarantee warranty for Mattes products, MELP must be used when washing.

The Mattes Western Pad is excellent for horses that spend many hours working under saddle as the natural properties of the sheepskin absorb shock, and are highly breathable. The correction pads allow incremental changes for a precise fit with use of the Mattes POLY-FLEX® Shims. The POLY-FLEX® Shims are 5mm which are designed to be layered as needed for precise, incremental fitting. Helpful when saddles are too wide, bridge, rock, or managing an asymmetry.

SPINEFREE® design means no contact or rubs in this sensitive area
No seams on highest grade sheepskin available
Absorbs energy and bounce
Ideal for pressure distribution
Airflow between the fibers equalizes temperature
The Correction pads have 3 pockets on each side
5mm POLY-FLEX® shims provide precise correction—not more or less than needed

Tested to the limits, unsurpassed in quality and grounded in scientific research, the Equilibrium line of leg protection and therapy products have something to offer every discipline. Whether your horse is exposed to the rigors of the cross-country course or the precision of the dressage arena, you can trust Equilibrium to safeguard his most valuable assets.

When support, flexibility, and comfort are key, Stretch & Flex™ revolutionary materials are the answer. Lightweight, high-tensile strength performance fabrics with ultra-thin polyester membrane and elasticity, make it ideal so movement can remain unhindered. Stretch & Flex™ products maintain consistent body heat, blood flow, and compression in the horse’s legs during all levels of activity.

The materials allow excess body heat and perspiration to exit through the wraps at a controlled rate while standing. During exercise, the horse’s movement actively pumps excess heat and perspiration away from the leg. Stretch & Flex™ keeps your horse’s leg temperature stable, and cooler legs are proven to be less prone to injury.

Why compromise on leg protection when you can have a boot that has it all?

There are many factors to weigh up when choosing a boot, such as breathability, flexibility, weight, and protection – BUT what if you could have all of those?

Introducing the NEW Tri-Zone Impact Sports Boots – the ultimate in leg protection.

We’ve taken the original Impact Sports Boot and redesigned them using the latest research and technology, added a choice of colors, plus a range of sizes, so this all round boot can be used by anyone, for anything.

Superior tested protection levels make them suitable for high impact sports such as cross country, polo and racing. They are so comfortable to wear making them equally perfect for everyday riding. They are easy to wash and dry.
Tri-zone® Impact Boots
Breathable Multi-layered Composition

The Ultimate Boot Test
Independently Tested in a Safety Laboratory

WEIGHT
Tested to be lightweight, even when wet! Heavy boots increase the effort the horse must make and increase the risk of injury caused by the early onset of fatigue.

PROTECTION
Tested for protection against concussion and penetration, applying the same force as if the horse was to hit a solid fence or obstacle or struck into itself.

BREATHABILITY
Tested for breathability to ensure heat is allowed to escape from the boot, as research indicates that high temperatures may result in damage to tendons.

FLEXIBILITY
Tested for flexibility to reduce restriction of the horses’ movement. Stiff or tight boots can affect performance due to altering stride characteristics and joint movement.
**Tri-zone® Impact Boots**

Suitable for everything from 4* Cross Country to everyday schooling and hacking

- Contains 4 high-grade VITAflex® magnets in pillow packs which can be positioned exactly where needed. Very easy to wash & store. Comes with a modern & practical sports holdall. Now with 2 year warranty.

Additional Magnets Sold Separately
Long Magnet • SRP $70.00 • Q01350019
Item #433100-LNG
Short Magnet • SRP $70.00 • Q01350019
Item #433100-SHRT
The New Equilibrium Therapy Hind & Hock Magnetic Chaps are soft magnetic stable chaps, specifically designed to help horses suffering from stiffness and arthritis, particularly in the hock joint.

- Ergonomically shaped to fit horses' hind legs
- Allows Vitaflex® magnets to be placed directly at the lowest part of the hock joint, the common location for hock arthritis.
- Providing cover from hock to heel, the Hind & Hock Magnetic Chaps are ideal for horses that suffer with arthritis of the hock, or are prone to fluid filled legs in the stable, tendon problems, splints, navicular, bone chips, and general knocks, bumps, and scars.
- The magnetic chaps contain 4 clinical grade, VITAflex® magnets in pillow pouches which adhere to the lining of the chaps, allowing positioning of the magnets exactly where required.
- Suitable for use in the stable overnight or through the day.

CRUNCHITS™

- Low sugar, suitable for horses and ponies prone to laminitis
